Everything For  
Your Laboratory

Nabertherm have been developing and producing industrial furnaces for many different applications for over 60 years. Short delivery times are ensured due to complete inhouse production and their wide variety of standard furnaces.

Nabertherms range of Ashing furnaces are especially designed for ashing in the laboratory. A special air intake and exhaust system allows air exchange of more than 6 times per minute. Incoming air is preheated to ensure a good temperature uniformity.

Features include:-

- Digital controller with USB interface
- Heating from two sides
- Insulation made of non-classified fibre material
- Optional flap door (LV) or lift door (LVT) as shown here

LVT 9/11 Ashing Furnace

LV3/11 Muffle Furnace

Nabertherm offer a wide range of Muffle furnaces and Tube furnaces of varying specs and sizes. Some are available with a stand for vertical or horizontal operation.

Also available are various chamber furnaces, assay furnaces up to 1300°C, high temperature furnaces/sintering furnaces, melting furnaces, retort furnaces and clean room solutions. Nabertherm also sell a wide range of kilns for pottery, glass and china work and for fusing glass or even enamelling.

If you know what you want then please let us know and we will quote **accordingly. Or if you're not sure what's best then get in touch. We can get someone to speak to you to determine what's best for your application**

Some example prices

Eg LVT5/11 £2660.00 plus carriage

Eg LVT9/11 £2970.00 plus carriage
