Everything For Your Laboratory

Sieve Shakers and Sieves

Glenammer Engineering's range of Sieve Shakers is constantly evolving as Glenammer manufactures shakers to order and also to customer's particular requirements. All systems are 220/240 volt single phase.

All three models are capable of holding a maximum height of 850mm nested sieves plus lid and receiver (approx. 10 of 200mm or 8 of 300mm). They all come with a quick release clamping system to improve the testing efficiency. Suitable for dry and wet sieving.

Contact us for more information or to request a pdf brochure.

We can also supply a FULL range of sieves. Glenammer Test sieves are produced to comply with the specifications set out by the world's most demanding Standards: B.S. 410 / I.S.O. 3310 parts 1 & 2 and A.S.T.M: E.11 amongst others.

If you're paying too much for your sieves then contact us with your requirements.
