Everything For Your Laboratory

SI Analytics
a xylem brand

Titration made easy

SI Analytics offer a full range of Titrators for all applications including Karl Fischer titration. You can't go wrong with the new TitroLine® KF titrators from SI Analytics.

The TitroLine® 7500 KF is the volumetric generalist and the TitroLine® 7500 KF trace is the specialist for low water contents. Both new titrators have the following features:-

TitroLine® 7500 KF module

- Fast, easy and precise
- With standard methods for different applications (titer, blank value, 1 or 2 component reagent)
- The addition of solvent and the extraction of the titrated sample are managed by the titration stand TM 235 KF (optional for TitroLine® 7500 KF trace)
- Online display of curve and measurement drift during titration

Save £££'s

SI Analytics, formerly known as SCHOTT® instruments, has been known for 40 years for high quality piston burettes, titrators, sample changers and software. The product portfolio ranges from the simple TITRONIC® 300 piston burette for simple dosing tasks and manual titration to the TitroLine® 7800 with sample changer TW alpha plus / TW 7400 and TitrSoft software for complex titration tasks.
