Innovative lab equipment from IKA

Save 15%

The IKA RV 3 Rotary Evaporator is the ideal entry-level model of the IKA rotary evaporator portfolio. It has a multitude of uses in chemical, pharmaceutical & biotechnology industries.

Features

- New: 4 l heating bath for up to 99°C
- Water heating bath with digital temperature display and carrying handles
- Mechanical lift end-point safety stop

Normally £2500 (Model RV 3 V-C). Other models available.

IKA offers the ideal overhead stirrer for stirring and mixing tasks in the lab - for lower to high viscosities. IKA overhead stirrers effortlessly process stirring quantities of up to 200 litres.

**Eurostar 200 digital**            **£2773**

**Ministar 20 control**            **£1251**

Many models available. Functionality, safety, and longevity are the main goals in the development of IKA's overhead stirrers. Specs on request.

The IKA MultiDrive crusher can perform a wide range of crushing tasks involving coarse and fine crushing, thanks to the variety of vessels available. With the MultiDrive basic it is possible to mix or grind.

Two models available as well as a wider range of mills and grinders.

Discounts may vary on other equipment. Please ask for details.
