## Prescription Safety Eyewear

The Riley® performance eyewear range incorporates a full portfolio of prescription models, all expertly manufactured and delivered efficiently via a UK-based eyecare laboratory.

# Riley®

As well as protecting in accordance with EN 166, each of the styles provides the wearer with great levels of comfort within contemporary frame designs.

Several are available with Plano (non-prescription lenses), allowing the same frame style to be worn across the entire workforce.

Wearers get great fitting eyewear which not only protects from hazards, but enables them to wear prescription lenses without having to wear an additional safety goggle over the top. All models in the range are available with VISION EASE® impact and scratch resistant polycarbonate lenses and a complete range of options, including single-vision, bifocal and varifocal.

Bifocal and varifocal options are created using state-of-the-art Digital Inner Surface Technology, which compared to traditional production methods, results in enhanced vision clarity and wearer comfort.

All Riley® RX lenses are expertly manufactured in-house by highly experienced optical technicians in facilities certified to ISO 9000.

### Contact us for more information

A number of styles are available including safety goggles. Choose from the Riley Sports range or Classic range. Prices start from £60 for single vision polycarbonate lenses.

Extras are available including tints and polarised lenses for example.

Online portal for ordering to easily manage workforce prescriptions.

Get in touch today and try Riley prescription safety eyewear!
