Everything For Your Laboratory

Culture Media

With over 40 years of industry experience Neogen® are committed to investing in the development of their microbiology product offering. The Neogen Culture Media (NCM) product range incorporates high quality culture media and associated microbiology testing solutions. Across the versatile NCM portfolio they have combined expertise, skills, and knowledge to offer over 300 products in a range of formats, allowing them to cater to your laboratory's needs.

Accreditations. Their UK and US facilities operate under ISO 9001:2015 and the UK site is certified to ISO 13485:2016. Their QC labs test in accordance with ISO 11133 to provide quality that exceeds specified criteria. The UK QC laboratory is accredited in accordance with ISO 17025:2017 (UKAS).

Quality is of the utmost importance. Neogen source raw materials from approved suppliers and invest in reliable equipment to produce NCM products to applicable standards. Their QC team monitors product performance during the manufacturing process, helping customers achieve accurate, reproducible results.

Total Lab Supplies are proud to have been offering Neogen Culture Media for many years.

Why not get in touch today with your microbiological culture media requirements and let us provide a quotation. Neogen are flexible and support laboratories that follow different microbiological reference methods and offer culture media with a variety of formulations and specifications.

If you have any other laboratory requirements then give us a call. Total Lab Supplies offer a wide range of consumables, chemicals and equipment.
