Everything For Your Laboratory

INNOVATION SIMPLIFIED

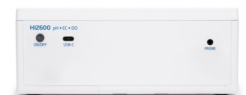

Precision just became more accessible! The new series of HI-2600 bench meters are innovation simplified offering an entry level instrument packed full of features & technology at a very competitive price without compromising on quality.

Each meter is supplied as standard with an appropriate digital smart probe with an integrated temperature sensor, USB-C cable, Power Adapter, Electrode Holder, Quality Certificates and a starter calibration pack.

- Seven models in the range: one multi-parameter and six single-parameter versions.
- Single-parameter models for pH, EC, and Dissolved Oxygen.
- Multi-parameter model measures pH, ORP, EC, and DO with smart probe recognition.

pH meter Includes features like 0.01 or 0.001 pH resolution depending on the model, 5-point calibration & GLP data. Two operating modes: full data display or basic mode & PC data transfer via USB as a CSV file without additional software.

Smart Electrode Technology means elimination of signal drift and interference with in-electrode processing. Each has a unique serial ID for traceability & predictive maintenance messages.

CODE	METER	PRICE
HI-2620-02	pH/ORP	£325.00
HI-2621-02	pH/ORP with logging	£425.00
HI-2630-02	EC/TDS	£525.00
HI-2631-02	EC/TDS/Salinity with logging	£625.00
HI-2640-02	DO	£525.00
HI-2641-02	DO with logging	£625.00
HI-2600-02	pH/ORP/EC/TDS/Salinity/ DO with logging (comes with pH electrode only)	£495.00
